CELEBRATE LOVE IN THE BAHAMAS

BAHAMAS

Bahamas, Caribbean

Are you considering the Bahamas for a destination wedding or a romantic honeymoon getaway? You should. Once there, kick back – you're on island time now! That Bahamian spirit is prevalent and all-encompassing over the 700 islands that make up the Commonwealth of the Bahamas. If you are looking for white sand beaches, soft blue green water and fabulous accommodations all just a quick flight away, then you have found paradise in the Bahamas.

The buzzing capital, Nassau, is a tropical city filled with amazing local food, culture and of course, beaches. Find yourself immersed in the nightlife of the main island, dancing the Calypso and drinking a Goombay Smash – the Bahamian national drink. And don't forget to try the conch while you are there!

 If you are looking for the ultimate high-end experience, charter a private yacht from the main island to The Exumas, an island group where the rich and famous go to play. An ideal location for a destination wedding or honeymoon, The Exumas will leave you breathless with untouched beaches and turquoise water wherever you look. Stay at one of the ultra-exclusive resorts like the Grand Isle Resort & Spa, one of the Bahamas most luxurious properties.
